

Fancy a **FREE** brand
new **kitchen appliance**
to help you save energy?
Thought so...

FREE KITCHEN APPLIANCES

Bristol City Council is offering energy-saving washing machines, dishwashers and tumble-dryers to homeowners in the **Ashley, Easton** and **Lawrence Hill** areas of the city.

These high-tech devices can be controlled remotely by you and will help you to reduce your energy bills. We're offering them for **FREE** for households who take part in a new research project. We'll even install them and show you how they work.

As this is a grant-funded pilot scheme, we have a limited supply, so this will be a 'first come first served' offer for eligible residents.

Get in touch today to apply and find out more.
